ANNUALS
FOR 1936

SUNNYBROOK FARMS NURSERY
CHESTERLAND, OHIO
SUNNYBROOK FARMS NURSERY

Announcement for 1936

This year as usual we are growing a large assortment of annuals and bedding plants, for the retail trade. As is our custom we have selected our seed from the grower or originator when possible. The plants are grown and transplanted in sterilized soil, pinched once or twice when necessary and well hardened.

This makes plants which are easy to transplant. We can furnish most of the varieties either from flats or in 2 1/4-inch pots.

You will find nearly all of the All American Selection and most of the Season's Novelties and a large number of rare and unusual annuals.

Among the COMMON Annuals we have:

Ageratum........................................Five varieties
Alyssum........................................Two varieties
